Patterns

Maison creates distinctive artisan tile designs—from sophisticated and classic to wildly avant-garde—but what makes us different is the ingenuity to bring them to reality. We cultivate techniques and styles from around the world, developing innovative production methods and finishing standards through our global factory partnerships. For creative designers and luxury showrooms, we're the rarest of surface design studios: combining a unique palette of materials, color, and finishes with outstanding sourcing and project management.

The Turn of the Century inspired design style of Geometro incorporates nostalgic micro glass hexagons into patterns echoing a distinct time & place. This standalone collection includes 12 patterns in 3 colorways. Understated yet elegant, the Classic line combines black, white, and gray. Evoking a rural spirit, the Country line incorporates cream, white, and gray. Drawing on the sights and sounds of the seashore, the Coastal line blends 3 shades of blue with white. All 3 Geometro options are available in stock.

RECYCLED GLASS

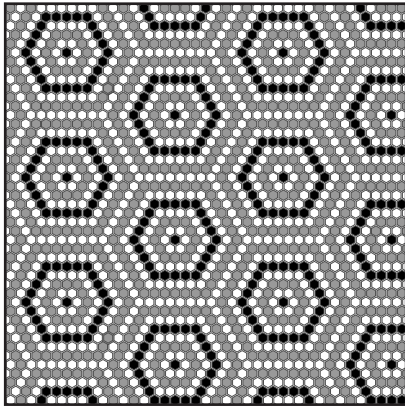

Manufactured from 98% recycled glass material, our Recycled Glass collection spans 80 striking colors—including options with imbedded flecks of metal—and 4 finishes: polished, matte, iridescent, and metallic. Although the standard line includes 18 shapes, each tile can be custom water-jetted into any shape the designer desires.
